

Two state level divisions/units administer the Title V Program in North Dakota (ND). The Division of Family Health, within the Community Health Section of the ND Department of Health (DoH) supervises programs related to women, infants, children and adolescents while the Children's Special Health Services (CSHS) Unit of the ND Department of Human Services (DHS) administers programs related to children with special health care needs. In addition, two other divisions within the Community Health Section of the NDDoH receive Title V funding. The Division of Injury Prevention and Control administers programs relating to domestic violence and the Division of Nutrition and Physical Activity administers programs that address MCH nutrition activities.

MATERNAL & CHILD HEALTH (MCH) MEASURES

Title V - MCH National Performance Measures	State 2004 Results	State 2009 Goal
The percent of newborns who are screened and confirmed with condition(s) mandated by their State-sponsored newborn screening programs (e.g. phenylketonuria and hemoglobinopathies) who receive appropriate follow up as defined by their State.	100.0%	100%
The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)	54.7%	60%
Percent of children with special health care needs age 0 to 18 whose families report the community-based service systems are organized so they can use them easily. (CSHCN Survey)	83.4%	85%
Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.	78.4%	81.5%
The rate of birth (per 1,000) for teenagers aged 15 through 17 years.	10.2	9
The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.	5.6	3.9
Percentage of mothers who breastfeed their infants at hospital discharge.	61.3%	68%
Percentage of newborns who have been screened for hearing before hospital discharge.	95.1%	98%
The percent of very low birth weight infants among all live births.	1.2%	1%
Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.	84.9%	88%
Title V - MCH National Outcome Measures	State 2004 Results	State 2009 Goal
The infant mortality rate per 1,000 live births.	6.3	7
The ratio of the black infant mortality rate to the white infant mortality rate.	2.5	0.5
The neonatal mortality rate per 1,000 live births.	4.8	5
The postneonatal mortality rate per 1,000 live births.	1.5	2.5
The perinatal mortality rate per 1,000 live births plus fetal deaths.	8.9	9.5
The child death rate per 100,000 children aged 1 through 14.	17.5	13.5
Title V - Selected MCH State Performance Measures	State 2004 Results	State 2009 Goal
Rate per 100,000 of pediatric hospitalization for asthma in children age 1 through age 17	70.2	64
The percent of CSHCN served by CSHS with a specialty care visit	87.5	96
The percent of reproductive age women who use a	60.3	63

State Population: 633,400
